CURRENT RESEARCH FOCUS

I am actively researching the environmental changes in the Holocene and interactions between human activities and natural changes in the Western Siberia, with a particular interest in the forest steppe zone. I use palynological studies of natural archives and cultural layers of different periods for reconstruction of the environment of the regional and local level, I analyze the anthropogenic impact on vegetation in the ancient and medieval times.

RESEARCH INTERESTS

Palynology, Climate changes, Landscape Archaeology, Western Siberia, Environmental Reconstruction, Ancient Activities (Agriculture and Pastoralism), Holocene.

CURRENT STATUS

Senior Researcher and Scientific Secretary, Institute of Problems of Development of the North Siberian Branch of the Russian Academy of Sciences (Tyumen, Russia)

EDUCATION and ACADEMIC QUALIFICATIONS:

- 1994-1999, Tyumen State University, Department of Ecology and Geography;
Specialist degree in Geoecology. Diploma N 0106996
- 2000-2004, Post-Graduate studies in Paleontology and Stratigraphy, Institute of Geology, Geophysics and Mineralogy BS RAS (Novosibirsk)
- 2000-2001, Individual Internship "Palynological study of cultural layers of settlements"
laboratory of natural sciences methods in archeology, Institute of Archaeology RAS,
three months
- 2004 Dissertation for Candidate of Paleontology and Stratigraphy "Stratigraphy, climate, landscapes and human environment in the southern Trans-Ural during the Holocene";
PhD degree from Institute of Geology, Geophysics and Mineralogy SB RAS
(Novosibirsk). Certificate KT № 137613

PROFESSIONAL OCCUPATION

- 1998 - Institute of Problems of Development of the North SB RAS, Laboratory of paleoecology,
Laboratory assistant
- 2001- Institute of Problems of Development of the North SB RAS, Laboratory of paleoecology,
Junior research assistant,

- 2003 - Institute of Problems of Development of the North SB RAS, Laboratory of archeology and natural-scientific methods, Researcher. Parallel an administrative position as a Scientific Secretary of Institute
- 2008 – Present, Institute of Problems of Development of the North SB RAS, Laboratory of archeology and natural-scientific methods, Senior Researcher. Parallel an administrative position of Scientific Secretary of the Institute

GRANTS (as the head of the project)

- 2001 – 2002 Russian Foundation of Basic Research (RFBR) grant: Landscapes and climate in Emetc-Ishim interfluve in the Holocene (based on palynological studies of peatlands)
- 2007-2008 Siberian Branch of the Russian Academy of Sciences, Grant for projects of young scientists (Academician Lavrentiev grants): Environmental change and their impact on the population in the Late Bronze and Early Iron Age (XV-IV BC) Tobol-Ishim interfluve.
- 2010-2011 Siberian Branch of the Russian Academy of Sciences, Grant for projects of young scientists (Academician Lavrentiev grants): Climate Changes in the forest-steppe of Western Siberia and its impact on land use systems in the ancient population in the last 4000 years
- 2014 DAAD research stay “Reconstruction of natural and human-induced changes of vegetation in the West Siberia during the Holocene by palynological indicators”, research stay project in Ruprecht-Karls-Universität, Heidelberg

COLLABORATIVE RESEARCH (part of a team)

- 2001-2003, Project of Russian Academy of Sciences: Comprehensive study of the living conditions of Sargatsk population (Early Iron Age) in the West Siberian steppe, scientific director Prof. Dr. Matveeva N.P.
- 2001-2005, Project of Russian Academy of Sciences: Natural environment and cultural processes of the ancient and medieval population in the Western Siberia, scientific director Prof. Dr. Matveeva N.P.
- 2004-2006, Project of Russian Academy of Sciences: Land-use development in antiquity in the south-western part of the Ural-Siberian region and reconstruction of the environment in the Holocene, scientific director Prof. Dr. Zach V.A.
- 2004-2006, RFBR grant № 04-05-65200: Reconstruction of the genesis and evolution of lake-marsh ecosystems of Middle Asia in the Holocene , scientific director Prof. Dr. Larin S.I.
- 2007-2009, Project of Russian Academy of Sciences: Cultural processes, social structure and production of ancient societies of the Neolithic - Early Iron Age in the south of Western Siberia and the Urals , scientific director Prof. Dr. Zach V.A.
- 2010-2012, Project of Russian Academy of Sciences: Complex investigations of paleoeconomic activity of the population of Western Siberia , scientific director Prof. Dr. Zach V.A.
- 2011-2012, RFBR grant № 11-06-12016- ofi-m -2011 : Iranian- Turkish condominium in resource and transit zones in the eastern European steppe in the 1st millennium AD and factor of the Byzantine-Khazar confrontation Russian, scientific director Prof. Dr. Afanasyev G.E.
- 2013-Present, Project of Russian Academy of Sciences: Patterns of development of ancient societies in the Tobol-Ishim interfluve in transitional archaeological periods, scientific director Prof. Dr. Zach V.A.
- 2013-Present, Russian Foundation of Basic Research (RFBR) grant №13-06-12027 ofi-m: Agriculture in the peripheral areas of the East Asian geo-ecological zones (reasons for the appearance, dynamics, place in the life-support systems), scientific director Prof. Dr. Sergusheva E.A.

MEMBERSHIP

- 2010, Russian Research Society “Holocene” (<http://holocene.ru>)
2013, European Society for Environmental History (<http://eseh.org/>)
2014, European Associations of Archaeologist (<http://e-a-a.org>)

PRESENTATION AT THE CONFERENCES

a) International conferences

- 1999 “Materials on the Palaeogeographic Description of the Andronovo Age in the Trans-Urals Forest-Steppe” / *Complex Societies of Central Eurasia from the 3rd to the 1st Millennium BC, Regional Specifics in Light of Global Models*, 22-30 August 1999, Chelyabinsk.
- 2001 “Pollen research on the archaeological objects in the Trans-Urals forest-steppe”/ *International Workshop "Pollen as an indicator of environmental and paleoecological reconstruction"*, 18-21 September 2001, St.-Petersburg.
- 2008 “Environmental and climatic changes on the southern border of taiga in Western Siberia at the Middle-Late Holocene”// *Man and environment in the boreal forest zone: past, present and future*, 16-18 October 2008, Moscow.
- 2012 “Correlations of cultural and natural changes in the West Siberian forest steppe zone during the 1st and 2nd Millennium BC”/ *Offene Landschaften. Siedlungsforschung. Archäologie - Geschichte – Geographie*, 25-30 September 2012, Szeged.
- 2013 “Ancient agriculture in the south of Western Siberia: problems of paleoethnobotanic argumentation //16th Conference of the International work group for paleoethnobotany. 17-22 June 2013. Thessaloniki.
- 2013 “Agrolandscapes of terraced fields of the Northern Caucasus and their analogues in the Middle Don forest-steppe zone in the 1st Millennium AD” / *7th Biennial conference of the European Society for Environmental History*. 20-24 August 2013. Munich.
- 2014 “Diagnostics of ratio of forest and steppe biomes in the second half of the holocene according to natural archives from Western Siberia” / *9th European Palaeobotany Palynology Conference (EPPC)*, 26-31 August 2014, Padova.
- 2014 “The Impact of climatic fluctuation on culture in the finish of early Iron Age and the beginning of the Middle Ages in Trans-Urals” / *20th Annual Meeting of the European Association of Archaeologists*, 10 – 14 September 2014, Istanbul.
- 2014 “Sudden changes in economy on the northern periphery of the arid zone of Central Asia: interaction of natural and social factors” / *20th Annual Meeting of the European Association of Archaeologists*, 10 – 14 September 2014, Istanbul.
- 2015 “Cereal pollen grains in cultural layers and natural archives on the periphery of Central Asia” / *The Introduction and Intensification of Agriculture in Central Eurasia: The Exception to the Rule or the Exception That Proves the Rule?*, 19-22 March 2015, Berlin.

b) National (Russian) conferences

- 2003 – «Palynological research of peat profile from Stanichny Ryam (Материалы палинологического исследования торфяника Станичный Рям)»// *Problems of interaction between man and environment*, Vol. 4, Tyumen, Publishing House of the IPDN SB RAS, 2003, pp. 62-68.
- 2008 – “Paleobotanical argumentation of agriculture in ancient and medieval times in the Western Siberia (Палеоботаническая аргументация древнего и средневекового земледелия в Западной Сибири)” / *II (XVIII) Russian Archaeological Congress*, 10-12 October 2008, Suzdal.
- 2009 – “Reconstruction of landscapes in the Tobol-Ishim interfluve in the middle and late Holocene (based on palynological studies) (Реконструкция ландшафтного облика Тоболо-Ишимского междуречья в среднем и позднем голоцене (по материалам

- палинологических исследований)"/ *The role of natural-scientific methods in archaeological research*, 27-29 August 2009, Barnaul.
- 2010 – “Natural and anthropogenic changes in ecosystem in Tobol basin in the Holocene (by spore-pollen data) (Природные и антропогенные изменения экосистем Притоболья в голоцене (по спорово-пыльцевым данным)"/ *Dynamics of modern ecosystems in the Holocene*, 10-13 October 2010, Ekaterinburg.
- 2010 – "Palynological data from peat and soil - as an objects for reconstruction steppe vegetation in the Holocene (Спорово-пыльцевые данные торфов и почв – как объекты для реконструкции лесостепной растительности в голоцене)"/ *Dynamics of modern ecosystems in the Holocene*, 10-13 October 2010, Ekaterinburg.
- 2011 – “Paleoecological and habitat reconstruction on a multilayer settlement Mergen 6 in the Tyumen Priishimja (Реконструкция палеоэкологических условий и среды обитания на многослойном поселении Мергень 6 в Тюменском Приишимье)” / *III (XIX) Russian Archaeological Congress*. October 2011, Stararussa-Novgorod.
- 2011 – “Natural conditions of the forest-steppe in the Tobol basin during a transitional period and the Middle Ages (based on the study of Ust-Utyak-1 settlement) (Природные условия лесостепного Притоболья в переходное время и средневековье (по материалам изучения городища Усть-Утак 1)” / *Ecology of ancient and traditional societies*. November 2011, Tyumen.
- 2012 – “Paleocryological, paleoclimate and paleoecological record in the sediments of lake-wetland ecosystem in the south of Western Siberia in the Late Pleistocene and Holocene (Палеокриологическая, палеоклиматическая и палеоэкологическая летопись осадков озерно-болотных экосистем юга Западной Сибири в позднем плейстоцене и голоцене) / *Regional environmental response to global changes: North-Eastern and Central Asia*. September 2012, Irkutsk.
- 2012 - “Correlations of cultural and natural changes in the West Siberian forest steppe zone in the Bronze and Early Iron Ages (Взаимосвязь культурногенетических и природных процессов в лесостепи Западной Сибири в бронзовом и раннем железном веках)” / *6th international symposium “Steppes of Northern Eurasia”*. July 2012, Orenburg.
- 2014 “Features of palynological research at archaeological sites (Особенности палинологического исследования на археологических объектах)” // *First Russian scientific conference on archaeological soil science, dedicated to the memory of prof. Demkin*. Institute of Physics-chemical and biological problems in Soil Science. April 2014, Pushchino.
- 2015 “Borders of forest and steppe biomes in Western Siberia in the second half of the Holocene (palynological data on natural archives and cultural layers of archaeological sites) (Диагностика границы лесного и степного биомов Западной Сибири во второй половине голоцена (по палинологическим данным природных архивов и культурных слоев археологических памятников))”// *Man and the North: anthropology, archeology, ecology*. 6-10 April 2015, Tyumen.
